

Qty.	Description	Min. Cost	Max. Cost
1	semi-automatic rifle (i.e. mini-14, M-1 garand, AR-15, M-14, SKS, L1A1, AK-47, mini-30, CETME, AR-10, etc.).	\$ 150.00	\$ 2,000.00
4	magazines (this is a minimum, 8 or 10 magazines would be better). Smaller capacity magazines need to be reloaded too often. Larger capacity magazines are more prone to jamming. You must be able to carry at least 100 rounds of ammunition ready to fire.	\$ 10.00	\$ 150.00
1000	rounds of Full Metal Jacket ammunition compatible with your rifle. The more ammunition the better. It will probably be the hardest thing to supply or replace in a pinch. Avoid hollow point and soft point cartridges since these are not permitted by the Geneva Accords.	\$ 200.00	\$ 1,000.00
1 or 2	magazine pouches to carry your magazines conveniently. Be sure your pouches are compatible with your magazines and are green or camouflaged so they are inconspicuous.	\$ 10.00	\$ 50.00
1	pistol belt for carrying your gear like magazines and a canteen.	\$ 5.00	\$ 15.00
1	pair of combat suspenders (either the "Y"-load or "H"- load design). Without suspenders, the weight of all your gear loaded on your pistol belt will pull down your belt, especially when running and jumping. You May also use a L.B.V.	\$ 5.00	\$ 150.00
1	water canteen. Even if you stay close to home and never have to "rough it" in the woods, you will need to spend long periods of time away from running water. A full canteen will keep you from thirsting while you work or fight.	\$ 5.00	\$ 25.00
1	rifle cleaning kit with supplies for your rifle. Ideally, you should have a universal cleaning kit stored in a camouflaged field pouch.	\$ 2.00	\$ 30.00
1	woodland camo shirt (BDU).	\$ 10.00	\$ 50.00
1	woodland camo trousers. Obviously the bottom half of the body needs to be uniformed and camouflaged as much as the top.	\$ 10.00	\$ 50.00
1	pair of army boots or equivalent will protect your feet from the elements, mud, and sharp objects while providing a good footing.	\$ 20.00	\$ 150.00
1	First-Aid kit. There probably won't be any medical services available.	\$ 5.00	\$ 50.00
1	bayonet or knife for hand-to-hand combat. While bayonets are rarely used in modern combat, you will need some type of knife for hand-to-hand combat and utility. You might as well get a bayonet since these make good fighting knives anyway plus give you the option of fixing them on the end of your rifle for special situations that arise.	\$ 10.00	\$ 50.00
1 +	Food. M.R.E. or home made (canned goods, etc.)	\$ 5.00	\$ 20.00
1	angle-head flashlight. Preferably with blue or red lens cover to keep your night vision. Unless you have super-human night vision. Don't forget extra batteries.	\$ 5.00	\$ 15.00
1	FRS radio. 10-mile minimum. Again, don't forget extra batteries.	\$ 5.00	\$ 100.00
1	A.O. map. County map.	free	\$ 10.00
1	note pad & pencil. Pencils are better than pens. You can always sharpen a pencil. Sometimes pens die.	\$ 1.00	\$ 5.00
2 +	extra pairs of socks. Wool will keep your feet warm even if it gets wet.	\$ 5.00	\$ 25.00
	Total approximate cost of necessary equipment	\$ 463.00	\$ 3,945.00
